EDUCATION

University of Manitoba

Bachelor of Arts in Economics, Minor in Management

Winnipeg, MB

Apr 2018 – Aug 2021

EXPERIENCE

Technical Solution Analyst

Anaplan Software Inc.

Nov 2024 – Present

Ottawa, ON

- Achieved **95%+ Customer Satisfaction (CSAT)** by delivering expert technical troubleshooting, rapid-cycle issue resolution, and proactive Anaplan model optimization to enhance performance and stability.
- Investigated and resolved complex integration, authentication and API workflows issues involving **OAuth, SSO, POSTMAN** and **Cloudworks Integrations**.
- Automated reporting and operational workflows using **APIs and Anaplan Connect**, improving data reliability and process efficiency.
- Partnered with Sales, Customer Success and Engineering teams to streamline workflows and improve operational efficiency across enterprise client environments.
- Utilized **Grafana, Tableau, and ServiceNow** analytics to identify trends, perform log analysis, and deliver actionable operational insights.

Product Support Analyst

Anaplan Software Inc.

Nov 2023 – Nov 2024

Ottawa, ON

- Managed and resolved 10–15 daily cases, identifying **system inefficiencies and recommending process improvements** aligned with sales operation's needs.
- Analyzed recurring technical issues and identified process improvement opportunities to enhance operational efficiency and customer experience.
- Delivered reporting insights and trend analysis that improved visibility into customer issues and supported faster operational decision-making.
- Resolved critical token-based authentication and authorization errors related to SSO, API access, and token-based integration ensuring secure and uninterrupted platform access.
- **Certified in Anaplan Level 1 & Level 2 Model Building Certifications**

Product Support Analyst

CaseWare International

May 2023 – Nov 2023

Toronto, ON

- Managed relationships with 50+ clients while analyzing recurring issues to **identify trends and recommend operational improvements**.
- Acted as Subject Matter Expert (SME) to support internal teams with product knowledge, troubleshooting insights and workflow optimization.
- Built and structured knowledge repositories (Confluence) to streamline processes and improve **team productivity and reporting consistency**.

Workforce Management Analyst

247 Intouch

Oct 2017 – Jan 2018

Winnipeg, MB

- Developed workforce forecasting models and schedules for 150+ employees using Excel, improving **resource allocation efficiency by 20%**.
- Generated regular reporting packages for leadership, supporting **data-driven planning and performance tracking**.
- Analyzed operational data trends to align staffing with demand, enhancing **forecast accuracy and productivity**.

PROJECTS

Personal Portfolio Website | HTML, CSS, JavaScript

- Designed and developed a fully responsive personal portfolio website to showcase professional experience, projects, and technical skills.
- Implemented modern UI/UX features, responsive layouts and interactive navigation to enhance user engagement and accessibility across devices.
- Integrated downloadable PDF resume functionality and configured static deployment via GitHub Pages, resolving file routing and asset hosting challenges.
- Applied modular CSS styling, and performance-conscious animations to create a clean, modern and professional web experience.

BI Dashboard Development for Enhanced Decision-Making | Power BI

- Designed interactive Power BI dashboards using DAX measures and calculated columns
- Developed KPI tracking for revenue growth, product performance, and regional sales trends
- Implemented drill-down functionality by product, time, period, and geography to support executive-level decision-making
- Improved visibility into sales performance metrics through dynamic data visualization

Anaplan Modelling & Automation | Anaplan

- Applied Anaplan modelling best practices to replicate real-world enterprise planning use cases.
- Designed modular model structures for scalability and performance optimization.
- Tested API integration workflows using Postman to validate authentication and endpoint behavior
